IDEAL FOR ART STUDENTS

➤ STREET ART TOUR: BARCELONA AS AN URBAN ART GALLERY

Discover Barcelona through its graffiti, an ideal way for youngsters to get to know the city. Some of it is merely a form of political or social protest, some purely aesthetical or amusing. A fun way to find out what makes the city really tick!

For decades, this city has been a canvas for street artists, local and foreign, emerging and recognized, who have left their mark on its walls. This fascinating city offers those who know where and how to look a wide variety of street art in all its forms (graffiti, stickers, stencil, paste-up, etc.), not to mention a range of too-cool-for-school spots (alternative galleries, shops, cafés) where this subculture can take refuge and show off their wares.

The guide –an artist herself– will give a brief outline of their role in society, recount a number of interesting anecdotes and explain the codes behind many of these temporary works, the product of this ever-shifting, subversive scene.

The guide will also introduce you to the underground scene in Barcelona; cool events, artist workshops, bars and clubs. And, of course, on the way we stop off for a drink in some of the coolest cafés/galleries in town!

And no, you won't have to exit through the gift shop.

Route: the old city (Raval, Barrio Gótico) Optionally: Poble Nou / **Duration:** 3 to 4 hours / **Price:** 13 euro pp (max 25 students)- fewer than 20: supplement

IDEAL FOR STUDENTS ARCHITECTURE/TOURISM

➤ CONTEMPORARY ARCHITECTURE TOUR

The guide -an architect- will explain how competition between the titanic egos of internationally-famed architects is shaping a unique district. This tour takes in some of the areas subject to the most ambitious redevelopment Barcelona has seen in recent years - Poble Nou and the Diagonal Mar area. We'll be looking at some prestigious, award-winning projects (including the Torre Agbar, Design Museum, the Fòrum building) by world-renowned architects (Jean Nouvel, David Chipperfield, Oriol Bohigas, etc.) considering them both on their own merits and their impact, individual and collective, on the surrounding area. Aspects looked at will include smart design, planning issues and sustainability (e.g. how a nitrogen capsule contributes to insulating a building).

We will be lingering a while in the 22@ district, which the authorities want to become a high-tech “hub”, where different technology companies come together and cross-fertilise.

Duration: 3 hours (with stop)/**Price:** 15 euro pp (min 20 students, smaller groups: supplement)

➤ ART NOUVEAU TOUR: MODERNISM AND MODERN-DAY LIFE IN A SINGLE DISTRICT

The Eixample, the district created around the turn of the 19th and 20th centuries, is a mecca for fans of Modernista (Catalan Art Nouveau) architecture, unique in the world. It is more than just Gaudí, its most famous exponent. This area, and the Eixample Dreta part of it in particular, is full of gems designed by other architects. During this tour, we focus on lesser known, more unusual buildings and creations which house flats, pharmacies, shops, bars, markets, etc.

We will give you an overview on how Modernism (and the Eixample) developed and how it reflected the Catalans' search for identity. We have a closer look at diverse interweaving building materials and certain lightweight structures used at the time. You will witness how they reached the perfect symbiosis between interior and exterior, how the total artwork becomes organic and gives the sensation of being almost alive; fuel for imagination, letting your senses soar free!

An eclectic style of architecture that looked to the past for inspiration, and united art, craftsmanship and spirituality. Or as Gaudí used to say: “a radical new way of being radically old”.

Duration: 3 hours with stop/**Price:** 13 euro pp (min 20 students, smaller groups: supplement)

➔ CYCLING TOURS

Cycling can be a great way to discover Barcelona: unfortunately, not everywhere is as safe as it could be for cyclists. We have used our local knowledge to design a safe and interesting route through the old town and along the beach. On the way, our guide will entertain and inform the students with plenty of interesting tales of the city: its history, culture and cuisine, urban changes and other hot topics.

We kick off in the heart of El Raval (part of the Old Town) and then make our way via the Museum of Contemporary Art to the old port; explore the little alleyways of the Barceloneta (if necessary at this point, we will pop into a tapas bar for a fishy snack); cycle along the extended beaches; pass the Puerto Olímpico and the ultra modern site of El Forum. We come back via the unique area of Poble Nou, the former industrial area now home to the city's tech and web businesses.

We also pass Ciutadella Park and the Arc de Triomf, gateway to the first World Exhibition, to then make our way into the district of Sant Pere.

You get to see a lot in relatively short time span, with amazing contrasts. But we won't tire you out: there'll be plenty of chance for rest and a snack!

After a 20 min walk we finish up at a typical Catalan farmhouse (with great views over the city!) where a delicious three-course meal will be served in a relaxed and informal atmosphere. An ideal way to escape from the city and enjoy some of the Catalan countryside.
